## GCSE <br> CHEMISTRY

Higher Tier Paper 1

## 8462/1H

Thursday 14 May 2020
Morning
Time allowed: 1 hour 45 minutes
At the top of the page, write your surname and other names, your centre number, your candidate number and add your signature.
[Turn over]

For this paper you must have:

- a ruler
- a scientific calculator
- the periodic table (enclosed).

## INSTRUCTIONS

- Use black ink or black ball-point pen.
- Pencil should only be used for drawing.
- Answer ALL questions in the spaces provided. Do not write on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.
- In all calculations, show clearly how you work out your answer.

## INFORMATION

- The maximum mark for this paper is 100.
- The marks for questions are shown in brackets.
- You are expected to use a calculator where appropriate.
- You are reminded of the need for good English and clear presentation in your answers.

DO NOT TURN OVER UNTIL TOLD TO DO SO

| 0 | 3 |
| :--- | :--- | :--- | This question is about silver iodide.

Silver iodide is produced in the reaction between silver nitrate solution and sodium iodide solution.

The equation for the reaction is:
$\mathrm{AgNO}_{3}(\mathrm{aq})+\mathrm{NaI}(\mathrm{aq}) \longrightarrow$
$\mathrm{AgI}^{(\mathrm{s})}+\mathrm{NaNO}_{3}(\mathrm{aq})$

| 0 | 3 | 1 |
| :--- | :--- | :--- | A student investigated the law of conservation of mass.

This is the method used.

1. Pour silver nitrate solution into a beaker labelled A.
2. Pour sodium iodide solution into a beaker labelled B.
3. Measure the masses of both beakers and their contents.
4. Pour the solution from beaker $B$ into beaker A.
5. Measure the masses of both beakers and their contents again.

TABLE 3 shows the student's results.
TABLE 3

|  | Mass before <br> mixing in g | Mass after <br> mixing in g |
| :--- | :--- | :--- |
| Beaker A and <br> contents | 78.26 | 108.22 |
| Beaker B and <br> contents | 78.50 | 48.54 |

Explain how the results demonstrate the law of conservation of mass.

You should use data from TABLE 3 in your answer. [2 marks]
