Higher Tier Paper 1
8462/1H
Thursday 17 May 2018 Morning
Time allowed: 1 hour 45 minutes
At the top of the page, write your surname and other names, your centre number, your candidate number and add your signature.
[Turn over]

## 2

For this paper you must have:

- a ruler
- a scientific calculator - the periodic table (enclosed).

## INSTRUCTIONS

- Use black ink or black ball-point pen.
- Answer ALL questions in the spaces provided.
- Do all rough work in this book. Cross through any work you do not want to be marked.
- In all calculations, show clearly how you work out your answer.

## INFORMATION

- There are 100 marks available on this paper.
- The marks for questions are shown in brackets.
- You are expected to use a calculator where appropriate.
- You are reminded of the need for good English and clear presentation in your answers.

## DO NOT TURN OVER UNTIL TOLD TO DO SO

| 0 | 1 | Soluble salts are formed by |
| :--- | :--- | :--- | reacting metal oxides with acids.

| 0 | 1 |
| :--- | :--- | . 1 Give ONE other type of substance that can react with an acid to form a soluble salt. [1 mark]

0 1. 2 Calcium nitrate contains the ions $\mathrm{Ca}^{2+}$ and $\mathrm{NO}_{3}{ }^{-}$

Give the formula of calcium nitrate. [1 mark]
