## GCSE <br> CHEMISTRY

F
Foundation Tier Paper 2
8462/2F
Wednesday 10 June 2020
Morning
Time allowed: 1 hour 45 minutes
At the top of the page, write your surname and other names, your centre number, your candidate number and add your signature.
[Turn over]

For this paper you must have:

- a ruler
- a scientific calculator
- the periodic table (enclosed).

## INSTRUCTIONS

- Use black ink or black ball-point pen.
- Pencil should only be used for drawing.
- Answer ALL questions in the spaces provided. Do not write on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.
- In all calculations, show clearly how you work out your answer.

## INFORMATION

- The maximum mark for this paper is 100.
- The marks for questions are shown in brackets.
- You are expected to use a calculator where appropriate.
- You are reminded of the need for good English and clear presentation in your answers.

DO NOT TURN OVER UNTIL TOLD TO DO SO

01 This question is about ammonia and fertilisers.

Ammonia is produced from nitrogen and hydrogen.

A catalyst is used to speed up the reaction.
The word equation for the reaction is: nitrogen + hydrogen $\rightleftharpoons$ ammonia

| 0 | 1 | 1 |
| :--- | :--- | :--- |
| 1 |  |  | What does the symbol $\rightleftharpoons$ show about the reaction? [1 mark]
