GCSE ECONOMICS

Paper 2 How the economy works

8136/2

Monday 3 June 2019

Afternoon

Time allowed: 1 hour 45 minutes

For this paper you must have:

- an insert.

You may use a calculator.

At the top of the page, write your surname and other names, your centre number, your candidate number and add your signature.

[Turn over]

BLANK PAGE

INSTRUCTIONS

- **Use black ink or black ball-point pen.**
- **Answer ALL questions.**
- **You must answer the questions in the spaces provided. Do not write on blank pages.**
- **Do all rough work in this book. Cross through any work you do not want to be marked.**

INFORMATION

- **The marks for questions are shown in brackets.**
- **The maximum mark for this paper is 80.**
- **Questions should be answered in continuous prose. You will be assessed on your ability to:**
 - **use good English**
 - **organise information clearly**
 - **use specialist vocabulary where appropriate.**

DO NOT TURN OVER UNTIL TOLD TO DO SO

SECTION A

Answer **ALL** questions in the spaces provided.

For questions with four responses, only **ONE** answer per question is allowed.

For each question completely fill in the circle alongside the appropriate answer.

CORRECT METHOD

WRONG METHODS

If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

FIGURE 3

The UK unemployment rate peaked at 8.5% in 2011. Since then it has fallen gradually. The fall in UK unemployment surprised many people. Economists expected that UK unemployment would rise after the financial crisis of 2008. They also thought that it would remain high as consumer confidence remained low. In addition, the effects of planned cuts to government spending were also expected to increase the level of unemployment.

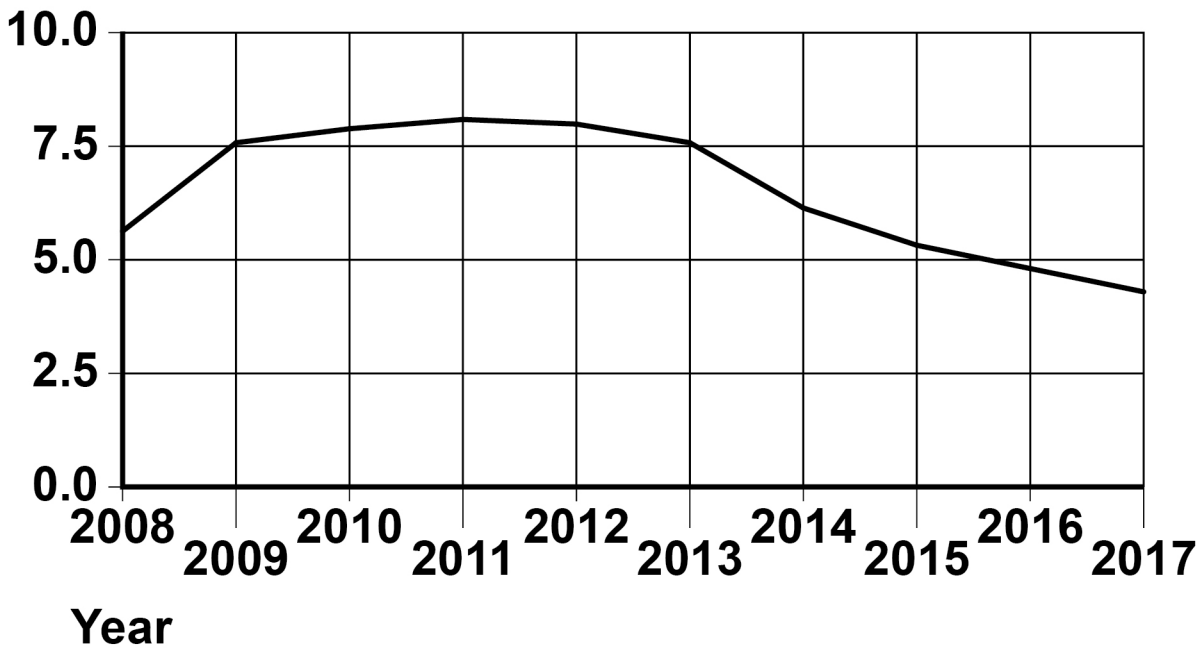

Most economists accept that governments should aim to reduce unemployment where possible. This is due to the negative impact unemployment has on individuals and the whole economy. Individuals who are unemployed usually have a lower standard of living compared to those in work. Higher unemployment also leads to government earning less in tax revenue.

Different factors cause unemployment. This makes it difficult to know how best to reduce unemployment. Also, aiming for low unemployment can lead to conflicts in achieving other economic objectives. This is important given that unemployment had fallen to a low level by the end of 2017.
