1 hour.

INSTRUCTIONS TO CANDIDATES

Write your Centre Number and Candidate Number in the spaces provided at the top of this page.

Write your answers in the spaces provided in this question paper.

Answer **all fifteen** questions.

Any working should be clearly shown in the spaces provided since marks may be awarded for partially correct solutions.

INFORMATION FOR CANDIDATES

The total mark for this paper is 56.

Figures in brackets printed down the right-hand side of pages indicate the marks awarded to each question or part question.

You should have a calculator, ruler, compasses, set-square and protractor.

The Formula Sheet is on page 2.

Formula Sheet

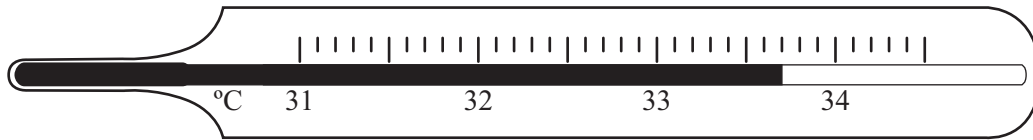

Area of trapezium = $\frac{1}{2}(a+b)h$

Volume of prism = area of cross section \times length

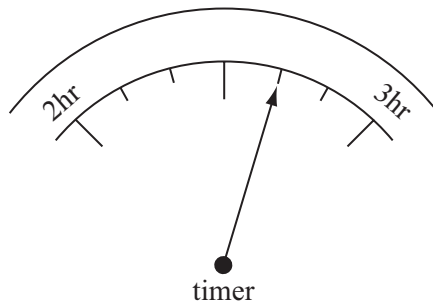

2 (a) Write down the temperature shown on the thermometer.

Answer _____ °C [1]

(b) Write down the reading from the timer.

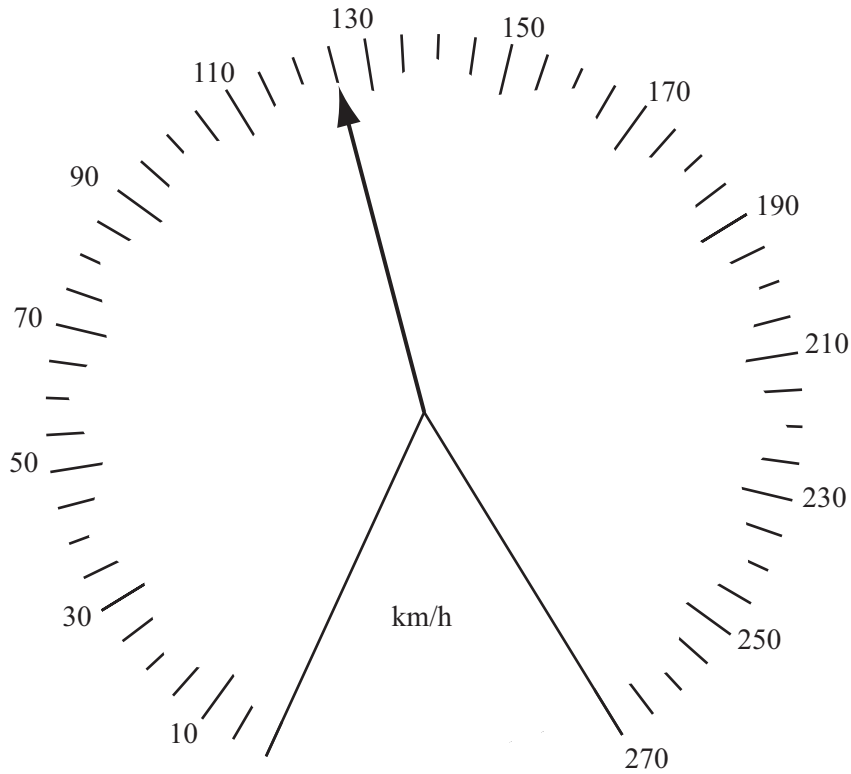

Answer ____ hrs ____ mins [1]

Examiner Only

Marks Remark

(c) The speedometer below shows the speed in km/h.

(i) What speed is shown?

Answer _____ km/h [1]

(ii) On the speedometer draw an arrow to show a speed of 158 km/h. [1]

(iii) What is the difference between the speed in (i) and the speed in (ii)?

Answer _____ km/h [1]

Total Question 3

4 The following temperatures were recorded in °C over a period of time

12, -2, 7, -9, 13, -14, 6, -10

From the list write down

(a) the warmest temperature,

Answer _____ °C [1]

(b) the coldest temperature.

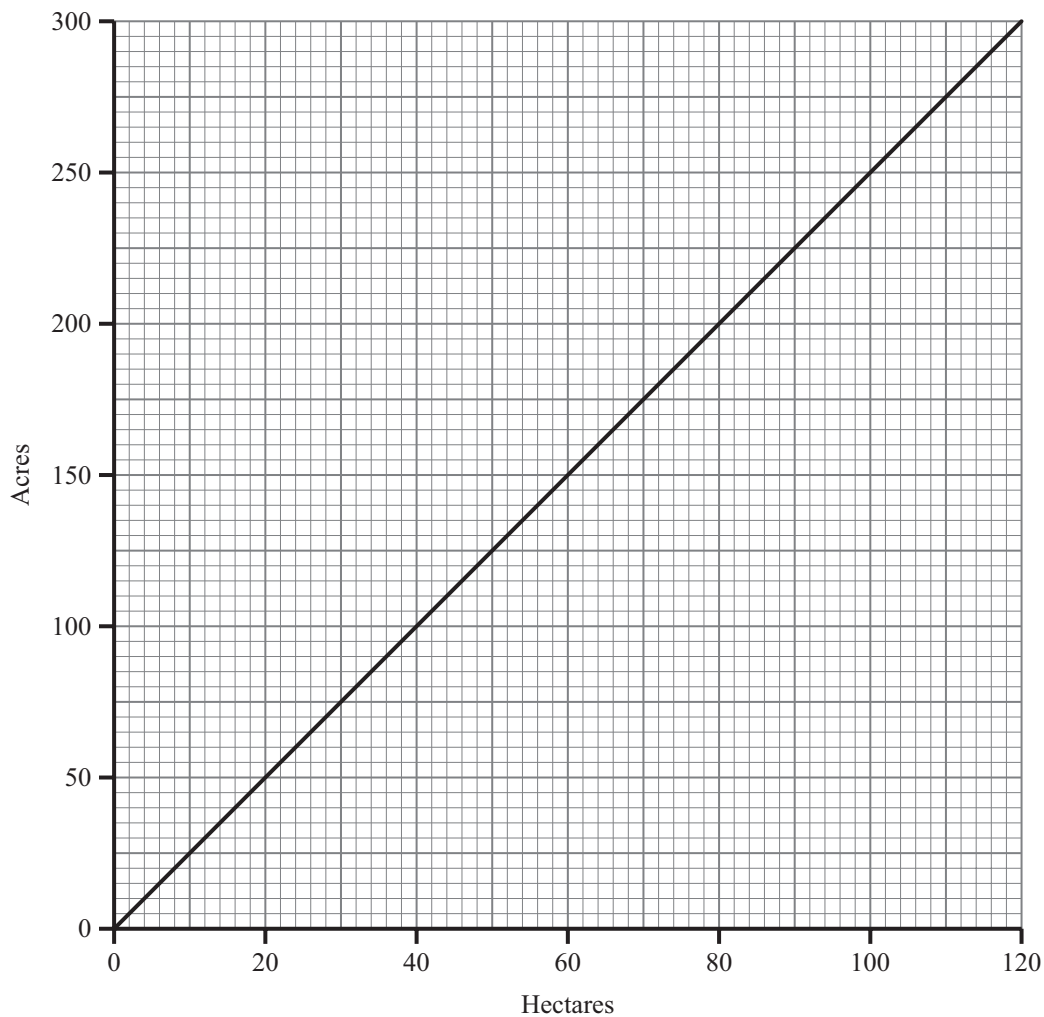

Answer _____ °C [1]

Total Question 4

5 Land area can be measured in hectares or in acres.

The conversion graph shows how to convert between hectares and acres.

(a) How many hectares are in 220 acres?

Answer _____ hectares [1]

(b) Work out the number of acres in 150 hectares.

Answer _____ acres [1]

(c) Complete the sentence

An acre is _____ times greater than a hectare. [1]
