www.PapaCambridge.com 2 (a) Describe how a person who had not used their bank's online system before register with this system once they had opened the bank's website. (b) Describe the features offered by online banking.

[4]

(c)	Discuss the benefits and drawbacks to the bank of operating online banking systems
	[8]

Questions 3 and 4

www.PapaCambridge.com Plyroc is an expanding company which supplies building materials such as house bricks, paving stones etc and offers buildings' insurance. It currently advertises using flyers and posters in the local community.

Scenario 2

Plyroc would like, however, to advertise to a larger audience. It has a small advertising department with office based staff which has been asked to produce a slide show using presentation software. The slide show will be shown in a number of shopping malls.

www.PapaCambridge.com 7 Give reasons why the company and employees prefer to have workers work in a based environment rather than working from home.

(a)	Slide shows have features which are not found in flyers or posters. Describe how four of these features could be used in the slide show.
	[4]
(b)	Using examples, describe these three advertising applications.

Scenario 4 **Questions 7 and 8**

The Oxbridge International Examination Board is planning to use ICT to mark candidate answers to their examination papers.

www.PapaCambridge.com They have employed Iqbal to provide a systems life cycle approach to developing the new system. He has already researched the existing system and recorded information about it using a data flow diagram.

A database of candidates including their marks for each question will need to be created.
