MARK SCHEME for the October/November 2014 series

9706 ACCOUNTING

9706/21

Paper 2 (Structured Questions – Core), maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

	Cambridge International AS/A Level – October/November 2014	9706	21

(d) Advantages

- Enables Zumbi to meet maximum demand for Ewe. (1)
- Enables Zumbi to meet maximum demand for Ess. (1)
- Zumbi may be able to use the space saved to make another profitable product. (1)

Disadvantages

- Quality of product may not be as good as own (1)
- Supplier may not be reliable (1)
- May not be able to save all the costs (1)
- Fixed costs will now be shared among less products (1)

[Max 6]

(e) Zumbi should not purchase the product (1) as the purchase cost is greater than the marginal cost (1)

Alternatively,

Zumbi should purchase the product (1) as it will produce a positive contribution of \$1 (1). [2]
