Paper 2 Reading and Writing

October/November 2016

MARK SCHEME

Maximum Mark: 70

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2016 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

Quality of Language: Accuracy Question 3

<p>5 Very good</p> <p>Consistently accurate. Only very few errors of minor significance. Accurate use of more complex structures (verb forms, tenses, prepositions, word order).</p>
<p>4 Good</p> <p>Higher incidence of error than above, but clearly has a sound grasp of the grammatical elements in spite of lapses. Some capacity to use accurately more complex structures.</p>
<p>3 Sound</p> <p>Fair level of accuracy. Common tenses and regular verbs mostly correctly formed. Some problems in forming correct agreement of adjectives. Difficulty with irregular verbs, use of prepositions.</p>
<p>2 Below average</p> <p>Persistent errors in tense and verb forms. Prepositions frequently incorrect. Recurrent errors in agreement of adjectives.</p>
<p>0–1 Poor</p> <p>Little or no evidence of grammatical awareness. Most constructions incomplete or incorrect. Consistent and repeated error.</p>

Length does not determine the quality of language mark. Answers scoring 0 for content cannot contribute any language marks, and the total available on the whole set of answers will therefore be affected. The final total for language will be reduced on the following scale:

Answer(s) worth 1, 2 or 3 scoring 0: reduce final assessment by –1

Answer(s) worth 4 or 5 scoring 0: reduce final assessment by –2

Answer(s) worth 6 or 7 scoring 0: reduce final assessment by –3

Answer(s) worth 8 or 9 scoring 0: reduce final assessment by –4

Where there is a mixture of questions worth 1, 2 or 3, 4 or 5, 6 or 7 or 8 or 9, base the reduction on the question worth the highest mark. For instance, if a 0 has been scored on a Question worth 1 mark and a 0 has also been scored on a question worth 6 marks reduce the final language mark by 3.

Note: A minimum of 1 mark for quality of language should be awarded if there are any content marks at all (i.e. 0 language marks only if 0 content marks).

[Total: 15 for Content + 5 for Language = 20]

- 4 (a) Ouer mense vind dit moeilik/sukkel om met al die veranderinge in die lewe by te bly, (veral tegnologie) [1]. Ouer mense se probleme ontstaan, omdat daar aanhoudend nuwe produkte/nuwe toepassings/nuwe programme/nuwe speletjies ontwikkel word [1]. [2]
- (b) Nuwe tegnologie word aanhoudend ontwerp en ontwikkel [1] net soos die horison verskuif sodra jy dit nader. [1] OF: Mense se uitkyk/behoefte verander daaglik [1] en daarom moet tegnologie daarby aanpas en ook verander. [1] (Moet ook iets oor die beeldspraak van die aanhaling sê om die 3 punte te verdien). [2]
- (c) Die skrywer vind die tegnologiese terme te moeilik/onverstaanbaar [1] en dit neem baie tyd om navorsing te doen [1]. [2]
- (d) Dit is moeilik om by te bly by die spoed waarteen die tegnologie ontwikkel [1] en op die ou einde word dit steeds moeiliker/is dit onmoontlik om by te bly [1], omdat tegnologie steeds sneller ontwikkel word [1]. [3]
- (e) Die skrywer voel nog positief/nie hopeloos nie/sien kans vir die uitdaging/is nog nie reg om tou/moed op te gee met tegnologie nie [1], want die skrywer sien nog kans om tegnologiese terme in die woordeboek op te soek om beter te verstaan. Sy/hy wil voluit lewe en probeer by bly met tegnologie. [1] (1 Punt vir houding en 1 punt vir oplossing). [2]
- (f) Ouer mense vind te veel vernuwing in tegnologie, en kan nie foute regstel nie/kan nie bybly nie. [1]
 Hulle het moeite met raakskerms/apps, en kan nie toepassings hanteer nie. [1]
 Ouer mense gebruik nog notaboekies en penne om notas te skryf. [1]

 - (4)** Volgens artikel 1 gebruik oud en jonk tegnologie om te kommunikeer, [1] maar in artikel 2 hou ouer mense nog daarvan om ander mense te besoek of om briewe te skryf. [1] [2]
