

**MARK SCHEME for the May/June 2015 series**

**8275 GLOBAL PERSPECTIVES (US)**

**8275/02**

Paper 2 (Essay), maximum raw mark 30

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2015 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

- The assessment objectives (AOs) are to some extent inter-dependent and the essays should be marked holistically using the level-based marking scheme below.
- Examiners should look at each section of the level descriptors. If all are solidly attained for a level, the top mark for the level is to be awarded. Descriptors describe the top mark of each level.
- There will frequently be some aspects of the answer which fall within a level and some within the level below. Examiners should award a lower mark in the higher band according to this balance. All marking will be positive. Examiners will use the full range of marks and look for the 'best fit', not a 'perfect fit'.
- There is no requirement for candidates to use technical Critical Thinking terms to access any level and candidates will **not** be rewarded for their use unless they are directly linked to the demands of the question.
- Essays should be between 1750 and 2000 words, excluding the list of reference. Examiners will not credit material after the 2000 word limit.
