FURTHER MATHEMATICS

GCE Advanced Level

www.PapaCambridge.com Grade thresholds taken for Syllabus 9231 (Further Mathematics) in the October/November 2012 examination.

	maximum	minimum mark required for grade:				
	mark available	Α	В	E		
Component 11	100	83	74	45		
Component 12	100	83	74	45		
Component 13	100	80	73	43		
Component 21	100	84	73	35		
Component 22	100	84	73	35		
Component 23	100	84	73	35		

The thresholds (minimum marks) for Grades C and D are normally set by dividing the mark range between the B and the E thresholds into three. For example, if the difference between the B and the E threshold is 24 marks, the C threshold is set 8 marks below the B threshold and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, then the threshold is normally rounded down.

The thresholds for the syllabus are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is 200.

For this syllabus in this series the grade thresholds were as follows:

Option	Combination of components	A *	Α	В	С	D	E
AX AY	11, 21 12, 22	187 187	167 167	147 147	124 124	102 102	80 80
AZ	13, 23	182	164	146	123	100	78

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
