MARK SCHEME

Maximum Mark: 50

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2017 series for most Cambridge IGCSE[®], Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

Question	Answer	Marks
1	<p>Candidates are required to list 8 items in Arabic. Read all the items the candidate has listed and award marks as follows:</p> <p>(i) Select the most correct items up to a maximum of 5. Award 1 mark for each correct item up to a maximum of 5. Stop ticking once 5 items have been rewarded.</p> <p>(ii) On Question 1, award marks for items wherever the candidate has written them.</p> <p>(iii) If the candidate offers more than one word per line, award a mark for each acceptable item.</p> <p>(iv) The pictures provided on the question paper are only suggestions. Accept any item the candidate could find as specified in the rubric.</p>	5
	<p>(v) Mark for communication. Tolerate inaccuracies, provided the message is clear. Ignore definite / indefinite article, possessive adjective.</p> <p>(vi) Questionable spellings:</p> <p>Start by referring to sheet of examples in the mark scheme. Only refer to the bullet below, if no decision on the spelling you have encountered is recorded there.</p> <ul style="list-style-type: none"> • 'If in doubt, sound it out': if you read what the candidate has written, does it sound like the correct answer? • Look-alike test: does what the candidate has written look like the correct answer e.g. one letter missing but no other word created. • If the first part of the word is correct, small errors in what comes next are less likely to impede communication (unless they suggest another meaning). • Where letters are transposed, the word is likely to communicate (unless another word has been created). <p>(vii) If there are five clearly acceptable items, award marks wherever these are in the list. This approach may allow questionable versions to be ignored.</p> <p>(viii) Reject misspelt words which suggest a word with a quite different meaning, for example, poison for poisson.</p> <p>(ix) Where nouns are usually plural, accept singular and vice versa.</p>
