UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

## www.papacambridge.com MARK SCHEME for the October/November 2008 question paper

## 0610 BIOLOGY

0610/02

Paper 2 (Core Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2008 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Mark Scheme	Syllabus
	IGCSE – October/November 2008	0610
General note	S	
symbols used	in mark scheme and guidance notes.	Syllabus 0610
S	separates alternatives for a marking point	
S	eparates points for the award of a mark	
/IP n	nark point – used in guidance notes when referring to	numbered marking
DRA c	or reverse argument/reasoning	
WTTE c	or words to that effect	
	eject – this is marked with a cross and any following narks	correct statements c
	gnore/irrelevant – this response gains no mark, but jain marks.	any following correct
f	he word/phrase in brackets is not required to gain r or credit. e.g. (waxy) cuticle. Waxy not needed but cuticle then no mark.	

Small underlined words – this word only
