This document consists of **10** printed pages and **2** blank pages.

- www.papaCambridge.com • Use Fig. 1.3 to identify the freshly cut surface and the broken surface of each your two pieces of apple from S2.
- Label the two dishes 1 and 2.
- Put one piece of your apple into dish 1 and the other into dish 2.
- Use the pipette to add a few drops of water to the cut surface and the broken surface of the apple in dish 1. Put dish 1 to one side. Do not touch the apple.
- S3 is a piece of citrus fruit. Squeeze a few drops of juice from S3 over the cut surface and the broken surface of the piece of apple in dish 2. Do not touch the apple.
- After five minutes, observe the pieces of apple. Record your observations in Table 1.1.
- Repeat your observations every five minutes for a total of 20 minutes.

Between your observations you should move on to 1(c) and question 2.

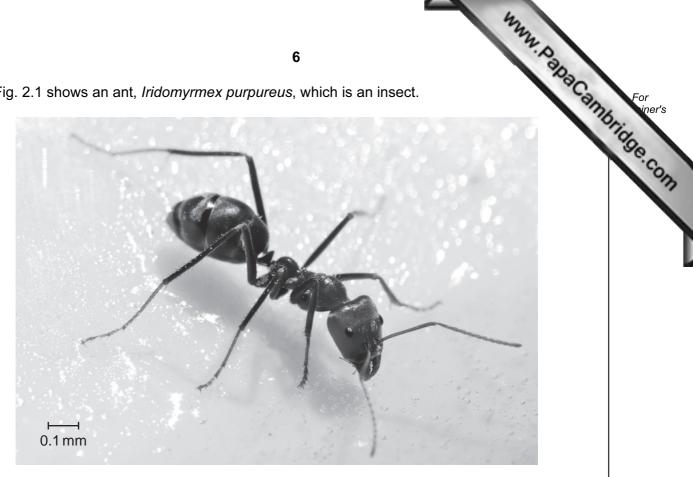

time / minutes	dish 1 , apple without juice		dish 2 , apple with juice	
time / minutes	broken surface	cut surface	broken surface	cut surface
