## UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

## **COMPUTER STUDIES**

0420/01

Paper 1

May/June 2006

2 hours 30 minutes

Candidates answer on the Question Paper. No Additional Materials are required.

## **READ THESE INSTRUCTIONS FIRST**

Write your Centre number, candidate number and name on all the work you hand in. Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

Answer all questions.

No marks will be awarded for using brand names of software packages or hardware.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [ ] at the end of each question or part question.

For Examiner's Use

www.PapaCambridge.com 2 1 Explain, using examples where appropriate, the meaning of these computer terms. (a) smart card [2] (b) relational database [2] (c) Read Only Memory (ROM) [2] (d) de-skilling [2] (e) top-down design [2] 2 State two features that are available on a digital phone. 1\_\_\_\_\_

- **12** A music club keeps its members' details on a computer file.
- www.PapaCambridge.com (a) Complete the table below which shows the data type, field length and validation che used for the club members' data.

	Data type	Field length	Validation check
Name			
Address			
Date of birth			
E-mail address			

[4]

(b) New members can join the music club by completing an application form on the club website.

Using the screen below design a web page which shows:

- the form for collecting new members' details
- a link to another web page listing events for the year.

	(c)	Each member is given a reference number. Give <b>one</b> reason why the reference must be unique.  [1]	Aide
		[1]	S. COM
	(d)	Give a situation when a record would be amended.  [1]	
	(e)	State the type of file access that is used to update a record.	
		[1]	
13	Ехр	pert systems are used for fault diagnosis.	
	(a)	Explain how an expert system could be used to advise a technician on how to repair a computer that is no longer working.	
		[3]	
	(b)	Give <b>two</b> applications, other than fault diagnosis, that use an expert system.	
		1	
		2[2]	

- **14** Batch processing is used for producing electricity bills.
  - (a) Give **two** reasons why batch processing is used rather than real-time processing producing electricity bills.

May May 1	
12 AM. Day	For Examiner's
ch processing is used for producing electricity bills.	OCAN Use
Give <b>two</b> reasons why batch processing is used rather than real-time processing producing electricity bills.	Morida
