0420/12

Paper 1

May/June 2011

2 hours 30 minutes

Candidates answer on the Question Paper.

No Additional Materials are required.

## **READ THESE INSTRUCTIONS FIRST**

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

Answer all questions.

No marks will be awarded for using brand names of software packages or hardware.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

For Examiner's Use

This document consists of 20 printed pages.

- www.PapaCambridge.com 17 A school has 1800 students. The start date and leaving date for each student is sto file. Dates are in the format YYMMDD (e.g. a student starting on 10th September 2007) leaving on 4th August 2012 has the data 070910 and 120804 on file).

- (a) Write an algorithm, using pseudocode or otherwise, which
  - inputs Student ID for all 1800 students
  - inputs the start date and leaving date for each student
  - carries out a check to ensure the second date is later
  - if error, increments error counter outputs the number of errors

	[5]
(b)	Describe, with examples, <b>two</b> sets of test data you would use to test your algorithm.
