0445/12 May/June 2016

Paper 1 Product Design MARK SCHEME Maximum Mark: 50

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2016 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

 \circledast IGCSE is the registered trademark of Cambridge International Examinations.

1	(a)	 Accept any four additional suitable points – safe to use, stable, won't topple, adjustal colourful, attractive, mobile, collapsible for storage. Accept other valid responses. 				
			(1 × 4)	[4]		
	(b)	Accept drawings of any two methods – screw/nut and washer, split pin, axle with end, welded stub axle type; Plastic formed bracket and captured wheel. Sub axle assembly with attachment star washer	threade to frame	ed		
		Accept other valid responses.	(2 × 2)	[4]		
2	(a)	Accept any four additional suitable points – stack for display, promotes the detai dolls, robust for storage, method of carrying, colours, attractive logo, recycle pote opened.	ls of the ential, ea	sily		
		Accept other valid responses.	(1 × 4)	[4]		
	(b)	Accept drawings of any two features – integrated handle, handle attached to pac cord/string, additional carrying frame, single or double sided handle. Accept other valid responses.	xage,			
			(2 × 2)	[4]		
3	(a)	Accept any four additional suitable points – safe to use, shape/theme, stable, robust, me of steering, method of propulsion, materials, method of movement. Accept other valid responses.				
			(1 × 4)	[4]		
	(b)	Accept drawings of any two mechanisms of propulsion – pedal, linkages, chain, powered, treadle, electric motor, hand levers, gearing. Accept other valid responses.	foot			
			(2 × 2)	[4]		
	(c)	Any suitable ideas. At least three different ideas for maximum marks. Pro rata if fewer. Communication				
		Simple drawings displaying a low standard or limited range of techniques. Clear drawings displaying a good standard and a range of techniques –	(0–2)			
		shading/colour/annotation etc. High quality drawings using a wide range of techniques with clear annotation and	(3–4) 1 detail. (5–6)			
		Suitability Simplistic designs showing outlines only.	(0–2)			
		Rather more detail, sensible solutions that could work. Accurate solutions, good fitness for purpose, construction detail.	(3–4) (5–6)	[12]		
	(d)	Evaluation of each of the ideas. At least 3 evaluations up to 2 marks each Selection and justification. (1 + 1)	(0–6) (2)	[8]
