

1. June/2022/Paper_13/No.11

An image has been taken of a bird watcher and a bird. The original image has been saved as a jpg file type. You have been asked to remove parts of the image to just show the bird and to save it as a png file type to become the new image.

Original image

New image

(a) Explain the steps needed to change the original image to the new image.
