| Candidates answ Additional Materia | er on the Question Paper. als: Electronic calculator Mathematical tables (optional) | Geometrical instruments Tracing paper (optional) | 1 hour |

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a pencil for any diagrams or graphs.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer all questions.

If working is needed for any question it must be shown below that question.

Electronic calculators should be used.

If the degree of accuracy is not specified in the question, and if the answer is not exact, give the answer to three significant figures. Give answers in degrees to one decimal place. For π , use either your calculator value or 3.142.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question. The total of the marks for this paper is 56.

This document consists of **12** printed pages.

| Joseph changed 120 New Zealand dollars (NZ\$) into Australian dollars (A\$) when the exchange rate was NZ\$1 = A\$0.796. Calculate the exact amount he received. Image: mail of the exact amount he received. A bus leaves a port every 15 minutes, starting at 09 00. Image: mail of the exact amount he received at 17 30. How many times does a bus leave the port during one day? Image: mail of the exact amount he exchange rate of the exact amount he exchange rate of the exact amount he received. - www.papacambridge.com 14 A bag contains only red, yellow and blue counters. Bashira picks a counter at random from the bag, records its colour, and puts it back in the bag. She does this 60 times.
 - (a) Complete the table for her results.

| Colour | Frequency | Relative frequency |
|--------|-----------|--------------------|
| Red | 19 | |
| Yellow | | |
| Blue | 28 | |

[2]

(b) Gita picks a counter at random from the same bag.

Which colour counter is she most likely to pick?

Answer(b) [1]

15 A cruise ship travels at 22 knots.

[1 knot is 1.852 kilometres per hour.]

Convert this speed into metres per second.

Answer m/s [3]

| 6 (a) Write down a common multiple of 8 and 14. | 8 WWW. Pak | Bacambridge.ga |
|--|---------------------|----------------|
| (b) (i) Complete the list of factors of 81. | Answer(a) | [1] |
| 1, (ii) Write down the prime factor of 81. | , , <u>.</u> , , 81 | [2] |
| | Answer(b)(ii) | [1] |

Question 20 is printed on the next page.

In a survey of 60 cars, the type of fuel that they use is recorded in the table below. 20

Each car only uses one type of fuel.
