UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

## www.papacambridge.com MARK SCHEME for the October/November 2011 question paper

## for the guidance of teachers

## 0471 TRAVEL AND TOURISM

0471/01

Paper 1 (Written Paper), maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

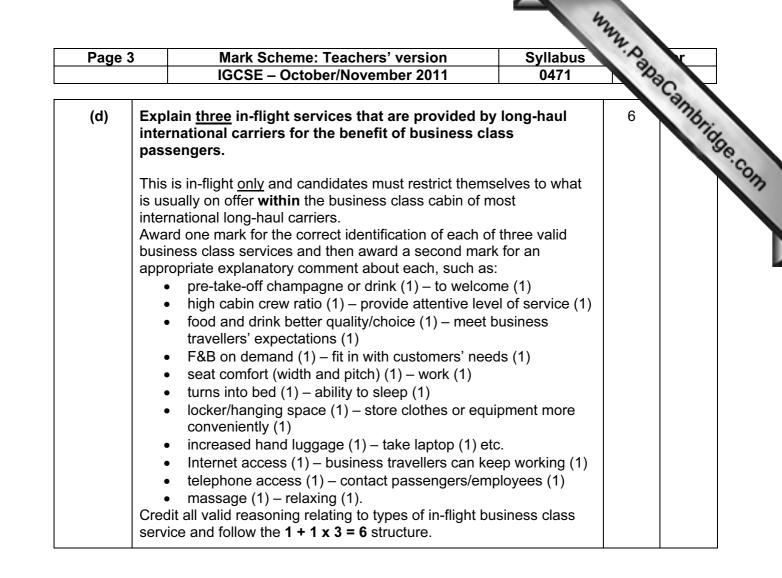

Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Question	Expected Answer	Mark	P TE
(a)	<ul> <li>With reference to Fig. 1, identify the following: <ul> <li>the number of foreign tourists visiting São Paulo in 2009</li> <li>the percentage of foreign visitors in 2009 that were leisure tourists</li> <li>the most popular month for visits by domestic tourists</li> <li>the average daily amount spent by all visitors on hotel accommodation in 2009.</li> </ul> </li> </ul>	4	1.4(a)
	<ul> <li>Award one mark for each correct identification as follows:</li> <li>Number = 1.7 million (must have million or m)</li> <li>Percentage = 13.6%</li> <li>Month = December</li> <li>Amount = US\$68 (must have/state \$).</li> <li>These are the <u>only</u> valid answers.</li> </ul>		
(b)	Outline <u>three</u> likely reasons to explain why the average amount spent by foreign visitors to São Paulo is nearly US\$100 more than the average amount spent by domestic visitors.	6	1.4(b)
	<ul> <li>Award one mark for the correct identification of each of three valid factors related to foreign visitor expenditure and then award a second mark for an appropriate amplificatory development of each. Correct ideas in this context include:</li> <li>paying for accommodation (1) – nowhere to stay in overseas location (1)</li> <li>long-haul travel (1) – length of stay greater (1)</li> <li>wealthier Europeans (1) – greater level of disposable income (1)</li> </ul>		
	<ul> <li>buying souvenirs (1) – locals would not do this (1)</li> <li>sightseeing and tours – locals less likely to do these (1).</li> <li>N.B. comments about business traveller expenditure are valid as stimulus clearly states 57% of visitors are business tourists.</li> </ul>		
	Credit all valid reasoning relating to types of foreign visitor expenditure and follow the $1 + 1 \times 3 = 6$ structure.		
(c)	<ul> <li>With reference to Fig.1, identify the <u>three</u> most commonly used methods of transport for domestic tourists visiting São Paulo.</li> <li>Again, these are the only valid answers.</li> <li>Award one mark for the correct identification of each of: <ul> <li>bus</li> </ul> </li> </ul>	3	2.3(a)
	<ul><li>air/aircraft/plane</li><li>car.</li></ul>
