MARK SCHEME for the October/November 2013 series

5090 BIOLOGY

5090/21

GCE Ordinary Level

Paper 2 (Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Page 2	Mark Scheme	Syllabus	Paper
	GCE O LEVEL – October/November 2013	5090	21

Mark schemes will use these abbreviations:

o ; separates marking points

I alternatives

contents of brackets are not required but should be implied

> **R** reject

• A accept (for answers correctly cued by the question, or guidance for examiners)

• **AW** alternative wording (where responses vary more than usual)

• AVP alternative valid point (where a greater than usual variety of responses is expected)

ORA or reverse argument

o <u>underline</u> actual word underlined must be used by candidate (grammatical variants excepted)

max
 indicates the maximum number of marks that can be given
 statements on both sides of the + are needed for that mark
