# MARK SCHEME for the October/November 2009 question paper for the guidance of teachers 

## 5070 CHEMISTRY <br> 5070/03 <br> Paper 3 (Practical Test), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2009 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

| Page 2 | Mark Scheme: Teachers' version | Syllabus |
| :---: | :---: | :---: |
|  | GCE O LEVEL - October/November 2009 | 5070 |

1 (a)

| Test |  | Notes |
| :--- | ---: | :--- |
| Test $\mathbf{1}$ |  |  |
| (a) White ppt | (1) | Ppt must be white |
| (b) Disappears | (1) |  |
| Test 2 |  |  |
| (a) White ppt | (1) | Ppt must be white |
| (b) Remains | (1) |  |

Formula of impurity in $\mathbf{P}$ is NaCl or $\mathrm{Cl}^{-}$
(Test 2 must be correct)
(1) [5]
(b) Titration

Accuracy
For each of the two best titres give:
4 marks for a value within $0.2 \mathrm{~cm}^{3}$ of supervisor
2 marks for a value within $0.3 \mathrm{~cm}^{3}$ of supervisor
1 mark for a value within $0.4 \mathrm{~cm}^{3}$ of supervisor
Concordance
Give:
3 marks if all the ticked values are within $0.2 \mathrm{~cm}^{3}$
2 marks if all the ticked values are within $0.3 \mathrm{~cm}^{3}$
1 mark if all the ticked values are within $0.4 \mathrm{~cm}^{3}$

## Average

Give 1 mark if the candidate calculates a correct average (error not greater than 0.05 ) of all his ticked values.

Assuming a $25 \mathrm{~cm}^{3}$ pipette and a titre of $24.8 \mathrm{~cm}^{3}$.
(c) moles of sodium carbonate in $1.00 \mathrm{dm}^{3}$ of $\mathbf{P}$
$=\frac{24.8 \times 0.1}{25 \times 2}$
$=0.0496$ (correct to 0.0001)
(d) mass of sodium carbonate in $1 \mathrm{dm}^{3}$ of solution $\mathbf{P}$.

$$
\begin{aligned}
& =0.0496 \times 106 \\
& =5.26 \mathrm{~g}
\end{aligned}
$$

(e) percentage by mass of sodium carbonate in impure sample.

$$
\begin{aligned}
& =\frac{5.26 \times 100}{6.00} \\
& =87.7 \%
\end{aligned}
$$

$2 \mathbf{R}$ is zinc sulfate $\mathbf{S}$ is iron(II) sulfate $\quad \mathbf{T}$ is lead(II) nitrate

| Test | Notes |  |
| :--- | :--- | :--- |
| General points <br> For ppt <br> allow solid, suspension, powder <br> For gases <br> Name of gas requires test to be at least partially correct. <br> Effervesces = Bubbles = gas vigorously evolved (but not just gas evolved) <br> Solutions <br> Colourless not equivalent to clear, clear not equivalent to colourless <br> Solution $\mathbf{R}$ <br> Test 1 <br> (a) White ppt <br> (b) Soluble in excess <br> Colourless solution <br> Test 2 <br> (a) White ppt <br> (b) Soluble in excess <br> Colourless solution <br> (c) No reaction <br> Test 3 <br> No reaction/purple colour remains | (1) |  |

| Page 4 | Mark Scheme: Teachers' version | Syllabus |
| :---: | :---: | :---: |
|  | GCE O LEVEL - October/November 2009 | 5070 |

| Solution S |  |  |
| :--- | ---: | :--- |
| Test $\mathbf{1}$ | $(1)$ |  |
| (a) Green ppt | (1) |  |
| (b) Insoluble in excess |  |  |
| Test $\mathbf{2}$ | (1) |  |
| (a) Green ppt | (1) |  |
| (b) Insoluble in excess | (1) | Accept brown but not orange |
| (c) Red-brown ppt | (1) |  |
| Effervescence | (1) | Test for gas here or in Test 2 (c) for T |
| Gas relights glowing splint | (1) | Partially correct test allow mark for oxygen |
| Oxygen |  |  |
| Test 3 | (1) | Colourless solution formed |
| Decolourised |  |  |

| Solution $\mathbf{T}$ |  |  |
| :--- | ---: | ---: |
| Test $\mathbf{1}$ |  |  |
| (a) White ppt | (1) |  |
| (b) Insoluble in excess | $(1)$ |  |
| Test $\mathbf{2}$ |  |  |
| (a) White ppt | (1) |  |
| (b) Soluble in excess | (1) |  |
| Colourless solution | (1) |  |
| (c) Black/brown ppt | (1) |  |
| Effervescence | (1) |  |
| Oxygen | (1) |  |
| Test 3 |  |  |
| White ppt | (1) |  |
| No reaction/purple colour remains | (1) |  |

## Conclusion

$\mathbf{R}$ is $\mathrm{Zn}^{2+}$ (White ppt must disappear in Tests $1 \& 2$ )
$\mathbf{S}$ is $\mathrm{Fe}^{2+}$ (Green ppt in 1 or 2)
Any candidate obtaining 25 or more marks scores the maximum on question 2 i.e. 19. Thereafter scores are awarded according to the following table

| Marks | 26 | 25 | 24 | 23 | 22 | 21 | 20 | 19 | 18 | 17 | 16 | 15 | 14 | 13 | 12 | 11 | 10 | 9 | 8 | 7 | 6 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Score | 19 | 19 | 18 | 17 | 17 | 16 | 15 | 14 | 14 | 13 | 12 | 11 | 11 | 10 | 9 | 8 | 8 | 7 | 6 | 5 | 5 |

| Marks | 5 | 4 | 3 | 2 | 1 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Score | 4 | 3 | 2 | 2 | 1 |
