0454/11

Paper 1

October/November 2024

MARK SCHEME

Maximum Mark: 100

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2024 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **25** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

PUBLISHED**Social Science-Specific Marking Principles
(for point-based marking)****1 Components using point-based marking:**

- Point marking is often used to reward knowledge, understanding and application of skills. We give credit where the candidate's answer shows relevant knowledge, understanding and application of skills in answering the question. We do not give credit where the answer shows confusion.

From this it follows that we:

- a** DO credit answers which are worded differently from the mark scheme if they clearly convey the same meaning (unless the mark scheme requires a specific term)
- b** DO credit alternative answers/examples which are not written in the mark scheme if they are correct
- c** DO credit answers where candidates give more than one correct answer in one prompt/numbered/scaffolded space where extended writing is required rather than list-type answers. For example, questions that require n reasons (e.g. State two reasons ...).
- d** DO NOT credit answers simply for using a 'key term' unless that is all that is required. (Check for evidence it is understood and not used wrongly.)
- e** DO NOT credit answers which are obviously self-contradicting or trying to cover all possibilities
- f** DO NOT give further credit for what is effectively repetition of a correct point already credited unless the language itself is being tested. This applies equally to 'mirror statements' (i.e. polluted/not polluted).
- g** DO NOT require spellings to be correct, unless this is part of the test. However spellings of syllabus terms must allow for clear and unambiguous separation from other syllabus terms with which they may be confused (e.g. Corrasion/Corrosion)

2 Presentation of mark scheme:

- Slashes (/) or the word 'or' separate alternative ways of making the same point.
- Semi colons (;) bullet points (•) or figures in brackets (1) separate different points.
- Content in the answer column in brackets is for examiner information/context to clarify the marking but is not required to earn the mark (except Accounting syllabuses where they indicate negative numbers).

3 Calculation questions:

- The mark scheme will show the steps in the most likely correct method(s), the mark for each step, the correct answer(s) and the mark for each answer
- If working/explanation is considered essential for full credit, this will be indicated in the question paper and in the mark scheme. In all other instances, the correct answer to a calculation should be given full credit, even if no supporting working is shown.
- Where the candidate uses a valid method which is not covered by the mark scheme, award equivalent marks for reaching equivalent stages.
- Where an answer makes use of a candidate's own incorrect figure from previous working, the 'own figure rule' applies: full marks will be given if a correct and complete method is used. Further guidance will be included in the mark scheme where necessary and any exceptions to this general principle will be noted.

4 Annotation:

- For point marking, ticks can be used to indicate correct answers and crosses can be used to indicate wrong answers. There is no direct relationship between ticks and marks. Ticks have no defined meaning for levels of response marking.
- For levels of response marking, the level awarded should be annotated on the script.
- Other annotations will be used by examiners as agreed during standardisation, and the meaning will be understood by all examiners who marked that paper.

Question	Answer	Marks	Guidance														
1(a)	<p>There are six stages involved in the enterprise process. Complete missing stages 1 and 5.</p> <table border="1" data-bbox="338 316 999 810"> <thead> <tr> <th data-bbox="338 316 477 416">Stage number</th> <th data-bbox="477 316 999 416">Description of stage</th> </tr> </thead> <tbody> <tr> <td data-bbox="338 416 477 483">1</td> <td data-bbox="477 416 999 483"></td> </tr> <tr> <td data-bbox="338 483 477 550">2</td> <td data-bbox="477 483 999 550">Exploring creative solutions</td> </tr> <tr> <td data-bbox="338 550 477 617">3</td> <td data-bbox="477 550 999 617">Action planning</td> </tr> <tr> <td data-bbox="338 617 477 684">4</td> <td data-bbox="477 617 999 684">Implementing the plan</td> </tr> <tr> <td data-bbox="338 684 477 751">5</td> <td data-bbox="477 684 999 751"></td> </tr> <tr> <td data-bbox="338 751 477 810">6</td> <td data-bbox="477 751 999 810">Evaluation of successes and failures</td> </tr> </tbody> </table> <p>1 Identifying the problem (or need) [1] 5 Monitoring progress [1]</p>	Stage number	Description of stage	1		2	Exploring creative solutions	3	Action planning	4	Implementing the plan	5		6	Evaluation of successes and failures	2	AO1–2

Question	Answer	Marks	Guidance
1(b)	<p>Describe how Mariam used <u>two</u> enterprise skills.</p> <p>Each point should be marked as follows: identification of an enterprise skill [1] application to Mariam’s actions. [+1]</p> <p>Answers may include:</p> <ul style="list-style-type: none"> • practical skills [1] Mariam wrote children’s stories [+1] • self-confidence [1] she thought that she would be an author/could publish a book [+1] • took the initiative [1] to research publishers [+1] • willing to take calculated risk [1] spending US\$1000 deciding which was the better publishing option [+1] • determination to succeed [1] she did not give up at the first problem [+1] • problem-solving [1] she researched the problem of how to publish a book [+1] • creative [1] • innovative [1]. 	4	AO1–2 AO2–2

Question	Answer	Marks	Guidance
1(c)	<p>Explain how each of the following could affect Mariam’s proposed enterprise:</p> <p>(i) a change in the population (ii) a change in real income.</p> <p>Each point should be marked as follows: identification of a change that could affect Mariam’s enterprise [1]</p> <p>Explanation of the affect. [+1]</p> <p>Change in population answers may include:</p> <ul style="list-style-type: none"> • increase in the average age of the population [1] may reduce demand for children’s books [+1] • rise in the number of children [1] may increase demand for children’s books [+1] • change in the ethnicity mix [1] need to translate the books into different languages. [+1] <p>Change in real income answers may include:</p> <ul style="list-style-type: none"> • falling incomes [1] fewer people may buy the books as they are a luxury product/price may have to be reduced [+1] • rising incomes [1] creates rising demand for books/ price may be increased. [+1] • Mariams’s income rising [1] would allow more investment. [+1] 	4	AO2–2 AO3–2

Question	Answer	Marks	Guidance
2(a)	<p>Define the term <i>risk reducer</i>.</p> <p>precise definition showing clear knowledge and understanding [1]</p> <p>imprecise definition showing some knowledge and understanding [1]</p> <p>Examples: A person who attempts to limit the likelihood and amount of a possible risk. [2]</p> <p>Person who <u>researches</u> to reduce risk [1] Person who <u>tries to mitigate/ manage</u> each risk [1] An attitude to risk. [1]</p>	2	AO1–2
2(b)	<p>Explain how <u>two</u> risks influenced <u>your enterprise project</u>.</p> <p>Each risk should be marked as follows:</p> <p>identification of a risk [1] explanation of the impact of the risk/or action taken to mitigate [+1] application to own enterprise [1]</p> <p>Answers will depend on the candidate's own enterprise experience. Examples: There was a risk we would run out of finance [1] stopping us from being able to buy more raw materials needed [+1] to produce more cupcakes. [1]</p> <p>There was a risk the Rector [1] would not give permission for unhealthy food to be sold [1] therefore we changed the enterprise to healthy food. [+1]</p>	6	AO1–2 AO2–2 AO3–2

Question	Answer	Marks	Guidance
2(c)	<p>State <u>two</u> examples of ethical actions in an enterprise.</p> <p>Each correct example [1] Answers could include:</p> <ul style="list-style-type: none"> • fair trade • organic farming/eco-friendly/cruelty-free goods • donations to charity • paying fair wages/fair prices to suppliers • charging fair prices/ prices in line with quality • ensure workers have fair hours. 	2	AO1–2

Question	Answer	Marks	Guidance
3(a)	<p>State <u>two</u> methods of primary market research.</p> <p>Each correct method [1] Answers may include:</p> <ul style="list-style-type: none"> • interviews • surveys • questionnaires • focus groups • observation. 	2	AO1

Question	Answer	Marks	Guidance
3(b)	<p>Explain why you needed to consider each of the following when choosing the methods of market research for <u>your enterprise project</u>:</p> <p>(i) the cost of the method (ii) the suitability of the method for reaching the potential target market.</p> <p>Each factor should be marked as follows: Application of factor to enterprise project [1] Explanation of why this was important [+1] Answers may include: (i) the cost of the method</p> <p>We spent US\$50 on research [1] this limited the advertising we could do. [+1]</p> <p>Would limit the money to spend on anything else. [1]</p> <p>(ii) the suitability of the method for reaching the potential target market.</p> <p>The enterprise project only ran for 2 weeks [1] we needed a fast method of research to help us start quickly. [+1]</p> <p>To ensure we gained the correct information [1] therefore we would make the cupcakes people would buy. [+1]</p> <p>If wrong method chosen, we will waste time and money. [1]</p>	4	AO2–2 AO3–2

Question	Answer	Marks	Guidance
3(c)	<p>Explain <u>two</u> ways that market research was helpful to Mariam.</p> <p>Each way should be marked as follows:</p> <p>Method of research Mariam used [1] and the information discovered [+1]</p> <p>Answers may include:</p> <ul style="list-style-type: none"> • discussing with her aunt [1] helped identify that people liked her story / gave her the idea to publish [+1] • ‘Mariam used internet research’ [1] identified option 1 and 2 as ways to publish books [+1] • meeting with the lawyer [1] made her realise the risks of publishing. [+1] <p>OR</p> <p>Information found [1] and what decision this helped Mariam to make [+1]</p> <p>Answers may include:</p> <ul style="list-style-type: none"> • identified the cost of each option [1] allowing her to choose the best option for printing [+1] • helped identify the selling price for the book [1] therefore she could decide if it would be profitable [+1] • Mariam’s research identified two ways that she could publish books [1] which helped her to see that she could afford to publish. [+1] 	4	AO2–2 AO3–2

Question	Answer	Marks	Guidance
4(a)	<p>Explain <u>one</u> source of start-up funding that could be suitable for Mariam.</p> <p>identification of a source of finance [1] explanation showing why suitable for Mariam [+1] Answers may include:</p> <ul style="list-style-type: none"> • personal saving • bank overdrafts • bank loans • grants • crowdfunding • friends and family. <p>Example: Personal savings [1] as she only needed a small amount of US\$3.50 per book. [+1]</p>	2	AO1–1 AO2–1
4(b)	<p>State the difference between <i>fixed costs</i> and <i>variable costs</i>.</p> <p>Clear statement of the difference or definition of each term [2] imprecise statement showing some understanding. [1]</p> <p>Examples: Fixed costs don't vary with output/do not depend on enterprise activity [1] Variable costs do change with output/enterprise activity. [1]</p>	2	AO1–1 AO2–1

Question	Answer	Marks	Guidance
4(c)	<p>Calculate, using Table 1, the expected total revenue Mariam will receive for <u>Option 1</u> if she produces 250 books. Show your working.</p> <p>US\$1500 [4] If answer is incorrect marks may be awarded as follows:</p> <ul style="list-style-type: none"> • Mariam receives $60\% \times 2500$. [3] <p>OR</p> <ul style="list-style-type: none"> • total revenue US\$ 2500 [2] <p>Or</p> <ul style="list-style-type: none"> • price per book US\$10 /Mariam Receives $0.6 \times$ selling price [1] 	4	AO1–2 AO2–2
4(d)	<p>Calculate, using Table 1, the expected profit for each book for <u>Option 2</u>. Show your working.</p> <p>US\$6.50 [2]</p> <p>If answer is incorrect: selling price – cost [1] OR US\$10 – US\$3.50 [1]</p>	2	AO1–1 AO2–1

Question	Answer	Marks	Guidance
5(a)	<p>Define the term <i>negotiation</i>.</p> <p>Precise definition showing clear knowledge and understanding [1] imprecise definition showing some knowledge and understanding. [1]</p> <p>Answers may include:</p> <ul style="list-style-type: none"> • reaching outcomes to satisfy the interests of all involved [2] • a discussion between two parties [1] to reach a mutual agreement [1] • the process of resolving disputes [1] to the satisfaction of both parties. [1] 	2	AO1–2
5(b)	<p>State <u>two</u> documents used in enterprise planning.</p> <p>Each correct document [1]</p> <p>Answers may include:</p> <ul style="list-style-type: none"> • agenda • action plan • business plan • cashflow forecast/financial documents • negotiation plan. 	2	AO1–2

Question	Answer	Marks	Guidance
5(c)	<p>Explain <u>one</u> reason why enterprise plans may need to be updated.</p> <p>Identification of a reason [1] explanation showing understanding. [+1]</p> <p>Answers may include:</p> <ul style="list-style-type: none"> • change of costs • external factors change – e.g. population/economic factors • changes in the level or type of competition • new products developed • additional finance is required • change of ownership • growth • achieved original objectives • enterprise is failing in some way e.g. not making sales, management failure/leaving. <p>Example: The original objectives have been achieved [1] and the business needs to set new ones. [+1]</p>	2	AO1–2

Question	Answer	Marks	Guidance
5(d)	<p>Explain <u>two formal</u> sources of help and support for enterprise other than a lawyer.</p> <p>Identification of a formal source of help and support [1] explanation showing help and support offered. [+1] Answers may include:</p> <ul style="list-style-type: none"> • government /business agencies • consultants • financial institutions/banks • charities • business networks • other entrepreneurs. <p>Example: Financial institutions [1] offer sources of finance to help entrepreneurs raise the funds to start operating. [+1]</p>	4	AO1–4

Question	Answer	Marks	Guidance															
6(a)	<p>There are several potential stakeholders in Mariam’s proposed enterprise. These include:</p> <ul style="list-style-type: none"> • banks (financier) • her mother • parents and children (customers) • publishing and printing businesses (suppliers). <p>Analyse how <u>two</u> of these potential stakeholders could affect Mariam’s proposed enterprise. Use examples from the case study to support your answer.</p> <table border="1" data-bbox="338 595 1122 1126"> <thead> <tr> <th>Level</th> <th>Description</th> <th>Mark</th> </tr> </thead> <tbody> <tr> <td>3</td> <td>Good analysis consistently applied to the case study Demonstrates good knowledge of concepts</td> <td>8–10</td> </tr> <tr> <td>2</td> <td>Some analysis supported by good application to the case study Demonstrates knowledge of concepts</td> <td>4–7</td> </tr> <tr> <td>1</td> <td>Limited application to the case study Demonstrates knowledge of concepts</td> <td>1–3</td> </tr> <tr> <td>0</td> <td>No creditable response</td> <td>0</td> </tr> </tbody> </table> <p>Knowledge may include:</p> <ul style="list-style-type: none"> • description of generic support offered by stakeholders e.g. banks give loans. • other stakeholders identified. 	Level	Description	Mark	3	Good analysis consistently applied to the case study Demonstrates good knowledge of concepts	8–10	2	Some analysis supported by good application to the case study Demonstrates knowledge of concepts	4–7	1	Limited application to the case study Demonstrates knowledge of concepts	1–3	0	No creditable response	0	10	The grade descriptions describe performance at the top of the band.

2	Some analysis supported by good application to the case study Demonstrates knowledge of concepts	4–7																
1	Limited application to the case study Demonstrates knowledge of concepts	1–3																
0	No creditable response	0																

Question	Answer	Marks	Guidance
6(a)	<p>Phrases which demonstrate some analysis may include:</p> <ul style="list-style-type: none"> • parents buy the books for their children creating revenue • parents could recommend that others buy her books • her mother was willing to provided her with US\$1000 finance needed. <p>Phrases which demonstrate good analysis will explain the impact of the stakeholder on Mariam’s enterprise. These may include:</p> <ul style="list-style-type: none"> • parents may not be willing to pay US\$10 therefore Mariam will not cover the costs of production and breakeven • parents could recommend that others buy her books, this positive word of mouth may increase sales influencing Mariam’s success and profit levels. <p>Her mother was willing to provide her with US\$1000 finance therefore allowing her to choose Option 1 (business publishing.)</p>		

Question	Answer	Marks	Guidance																		
6(b)	<p>Mariam is considering <u>two</u> options to publish her book, Option 1 and Option 2. Evaluate which of the <u>two</u> options you would recommend Mariam should choose. You should consider the advantages and the disadvantages of both options in your answer.</p> <table border="1" data-bbox="338 453 1124 1252"> <thead> <tr> <th data-bbox="338 453 439 518">Level</th> <th data-bbox="439 453 1010 518">Description</th> <th data-bbox="1010 453 1124 518">Mark</th> </tr> </thead> <tbody> <tr> <td data-bbox="338 518 439 719">4</td> <td data-bbox="439 518 1010 719">Clear reasoned evaluation is present Good analysis applied consistently to the case study Demonstrates good knowledge of relevant concepts</td> <td data-bbox="1010 518 1124 719">12–15</td> </tr> <tr> <td data-bbox="338 719 439 887">3</td> <td data-bbox="439 719 1010 887">Good analysis applied consistently to the case study is leading to evaluation Demonstrates knowledge of relevant concepts</td> <td data-bbox="1010 719 1124 887">8–11</td> </tr> <tr> <td data-bbox="338 887 439 1054">2</td> <td data-bbox="439 887 1010 1054">Some application to the case study supported by some analysis Demonstrates knowledge of relevant concepts.</td> <td data-bbox="1010 887 1124 1054">4–7</td> </tr> <tr> <td data-bbox="338 1054 439 1187">1</td> <td data-bbox="439 1054 1010 1187">Limited application to the case study Demonstrates some knowledge of relevant concepts.</td> <td data-bbox="1010 1054 1124 1187">1–3</td> </tr> <tr> <td data-bbox="338 1187 439 1252">0</td> <td data-bbox="439 1187 1010 1252">No creditable response</td> <td data-bbox="1010 1187 1124 1252">0</td> </tr> </tbody> </table> <p>Knowledge may include:</p> <ul data-bbox="338 1326 855 1358" style="list-style-type: none"> • stated cost /benefits of each option. 	Level	Description	Mark	4	Clear reasoned evaluation is present Good analysis applied consistently to the case study Demonstrates good knowledge of relevant concepts	12–15	3	Good analysis applied consistently to the case study is leading to evaluation Demonstrates knowledge of relevant concepts	8–11	2	Some application to the case study supported by some analysis Demonstrates knowledge of relevant concepts.	4–7	1	Limited application to the case study Demonstrates some knowledge of relevant concepts.	1–3	0	No creditable response	0	15	The grade descriptions describe performance at the top of the band.
Level	Description	Mark																			
4	Clear reasoned evaluation is present Good analysis applied consistently to the case study Demonstrates good knowledge of relevant concepts	12–15																			
3	Good analysis applied consistently to the case study is leading to evaluation Demonstrates knowledge of relevant concepts	8–11																			
2	Some application to the case study supported by some analysis Demonstrates knowledge of relevant concepts.	4–7																			
1	Limited application to the case study Demonstrates some knowledge of relevant concepts.	1–3																			
0	No creditable response	0																			

Question	Answer	Marks	Guidance
	<p>Phrases which demonstrate some analysis may include:</p> <ul style="list-style-type: none"> • Mariam will earn US\$6.50 for each book sold with Option 2 • Mariam will earn US\$10 for each book with option 1 • Option 1 more expensive than option 2 • Explanation of a cost or benefit. <p>Phrases which demonstrate good analysis will show why this is a point to consider and may include:</p> <ul style="list-style-type: none"> • Completing another calculation such as total profit Option 1 is ($\\$6 \times 250$ minus $\\$1000$ costs) \$500. Option2 ($\\6.50×250) \$625. • Can produce 35 more books for \$1000 with option 2. <p>Evaluation may be shown by a two-sided approach considering the advantages and disadvantages of each option. Total profit of Option 1 is \$500. Option2 is \$625. Therefore Option 2 is better for profit. However this means that Mariam will have to complete all of the work of publishing and selling the books.</p>		

Question	Answer	Marks	Guidance															
7(a)	<p>Non-verbal communication includes body language. Analyse any <u>two</u> effects that non-verbal communication had on the success of face-to-face communications in your enterprise project. Use examples to support your answer.</p> <table border="1" data-bbox="338 419 1122 1018"> <thead> <tr> <th>Level</th> <th>Description</th> <th>Mark</th> </tr> </thead> <tbody> <tr> <td>3</td> <td>Good analysis consistently applied to their own enterprise experience.
