|                    | Ascobury Stores Limited has a policy that all letters are checked for errors before they are sent.  Assess the usefulness of this policy to a business such as Ascobury Stores Limited.  Possible benefits:  • less chance of messages containing errors (spelling, grammar, facts etc.) being sent  • improved corporate image  • Managers/supervisors know about all items of correspondence Possible drawbacks:  • time taken to read all communications  • managers/supervisors have less time to do other things (or more staff needed)  • may slow down the response time to incoming communications: worsening corporate image  0 marks – no response or no response worthy of credit.  Level 1 (1-2 marks): Relevant points identified/described with basic communication. The response lacks organisation, structure and accuracy of spelling, punctuation and grammar.  Level 2 (3-4 marks): Relevant points analysed with adequate communication, e.g. by explaining the benefits/drawbacks. The response is adequately organised, structured and with some errors of spelling, punctuation and grammar. |                    | This is a good policy because letters might contain errors (L1) such as spelling mistakes (L1) or incorrect information (L1). So there is less chance that the firm's corporate image will suffer because of poor communication with customers (L2). On the other hand checking documents is time-consuming (L1) and expensive (L1) because a member of staff needs to be employed to check the letters (L2). In my opinion businesses should check all letters because of the problems that poor communication can cause (L3) but it would be better still if staff didn't make mistakes in the first place (L3).  |             |  |  |
